Dear Torsten Nenzén!

Thank you for your letter concerning Karolinska institutet. You have written several times in the same issue (i.e. U2007/6792/UH and U2009/6439/UH). The Ministry of Education and Research does not have the jurisdiction to interfere in individual cases.

The situation you give an account of is an issue for Karolinska Institutet or The Swedish National Agency for Higher Education (HSV). HSV has the responsibility of ensuring that higher education institutions comply with relevant legislation and regulations. You will find more information about the tasks of HSV on the webpage <http://www.hsv.se>.

As stated above, the Ministry of Education and Research nor the Swedish Government can advise Karolinska institutet to commence dialogue with you.

Kind regards,

Johan Gerdin
